

Please reject the NAB's petition 04-160.  
I currently pay for and benefit from satellite radio and the traffic and weather services provided and I do not think that the National Assoc. of Broadcasters should be able to dictate what I can and cannot hear.

This is especially true when you consider that the NAB's members are simply afraid of the competition.

I respectfully urge you to reject Petition 04-160 from the NAB.

Thank you,

Geoff Humphreys
